

Maryland Vapor Alliance

**SB 233 - Business Regulation - Flavored Tobacco Products - Prohibition
SB 410 - Electronic Smoking Devices - Flavor Prohibition
Favorable with Amendment**

February 13, 2020

Honorable Delores Kelley
Chair
Finance Committee

Chair Kelley,

The Maryland Vapor Alliance represents approximately 200 brick-and-mortar vapor shops across Maryland. We are small businesses and defined in statute as vape shop vendors meaning 70% or more of our retail sales are derived from vapor products and accessories such as hardware and liquids. For almost all of our shops, this number is closer to 90% - 100%.

We have helped thousands of Maryland tobacco users transition to vapor products through the use of “open systems” that allow the user to control the amount of nicotine intake. This allows the adult user to decrease their nicotine intake over time. What we sell differs significantly from the products sold in gas stations, convenience stores and pharmacies. The primary product sold by these retailers are “closed systems” with a fixed amount of nicotine. The fixed amount is up to 20x the amount of nicotine per milliliter in an open system. Additionally, the high-nicotine products sold by these shops are traditionally owned by “big tobacco.” JUUL is an example of these products and are not a staple of our shops.

We have included an attachment of one year of compliance data for the sale of ENDS/E-Liquids to minors compiled by the FDA for Maryland. You will see almost every product sold to minors is a high nicotine, closed system product and none of the offenses occurred at a shop classified as a vape shop vendor.

Should this legislation pass as drafted, vapor shop vendors will go out of business and adult Marylanders will no longer be able to access low-nicotine, flavored e-liquids they use to stay off combustible cigarettes. You will see in your packets, thousands of customers across the state submitted postcards to their elected officials sharing how flavors used in open systems helped save their lives.

The Maryland Vapor Alliance proposes limiting the sale of flavored products to those shops designated by law as “vape shop vendor.” Concurrent with the limitation would be a substantial increase in the penalty for selling to minors with a final penalty of license revocation.

Matt Milby
Vice President, Maryland Vapor Alliance
443-421-8669

Amendments to SB 233/SB 410

Amendment #1

1. Exempt a “Vape Shop Vendor” from flavor ban requirements.
2. Permit ESD manufacturer and wholesaler distributor to sell flavors to only Vape Shop Vendor.

Amendment #2:

1. Increase penalties for sale to minors:
 - a. 2nd Violation from \$1,000 to \$2,500
 - b. 3rd Violation from \$3,000 to \$5,000
 - c. 4th Violation w/in 24 month period – license revoked

The Truth About Vaping: Myth vs. Reality

E-Cigarettes Are An Effective Smoking Cessation Tool

The NEW ENGLAND
JOURNAL of MEDICINE

In February 2019 the New England Journal of Medicine published the study, "A Randomized Trial of E-Cigarettes versus Nicotine-Replacement Therapy" which found:

- ✓ *E-cigarettes are far more effective at helping smokers quit than FDA-approved therapies such as the nicotine gum, lozenges and patches*
- ✓ *18% of e-cigarettes users were smoke-free after 1 year*
- ✓ *The e-cigarette group reported greater declines in the incidence of cough and phlegm production*

The New York Times

"The study...found that e-cigarettes were nearly twice as effective as conventional nicotine replacement products, like patches and gum, for quitting smoking."

E-Cigarettes Are Effective at Helping Smokers Quit, a Study Shows. 1/30/2019.

As ENDS products have increased in use, the number of cigarette smokers have dropped dramatically:

The Centers for Disease Control reports that the number of U.S. smokers dropped from 20.6% in 2009 to only 15.5% as of 2016

E-Cigarettes Are Safer than Combustible Cigarettes & Save Lives

In 2015, 2016, 2017 and 2018, the United Kingdom's Health Agency England and the Royal College of Physicians each conducted a full review of all vapor research and concluded that *vapor products are at least 95% safer than combustible cigarettes*. The UK National Health Service now *promotes e-cigarettes as a means to quit smoking*.

Public Health
England

In the U.S., the National Academies of Sciences Engineering and Medicine conducted its own review of all the research and concluded in 2018:

- ✓ *"There is conclusive evidence that completely substituting e-cigarettes for combustible tobacco cigarettes reduces users' exposure to numerous toxicants and carcinogens present in combustible tobacco cigarettes."*
- ✓ *"There is substantial evidence that completely switching from regular use of combustible tobacco cigarettes to e-cigarettes results in reduced short-term adverse health outcomes in several organ systems."*
- ✓ *"The evidence about harm reduction suggests that across a range of studies and outcomes, e-cigarettes pose less risk to an individual than combustible tobacco cigarettes."*

The National
Academies of

SCIENCES
ENGINEERING
MEDICINE

GEORGETOWN UNIVERSITY
Georgetown University Medical Center

Georgetown University Medical Center published its study declaring that if we could encourage people to switch from traditional cigarettes to e-cigarettes we would prevent up to 6.6 million premature deaths annually in the U.S.

The Truth About Flavors: Myth vs. Reality

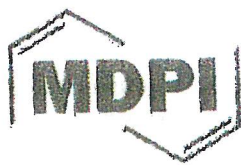

Science Proves Flavors Help Adult Smokers Quit

Published peer-reviewed research has shown that the flavors in vapor products are essential to helping adult smokers quit and are not the reason that youth vape.

- ✓ Contrary to the popular narrative, adults of all ages like many categories of flavors – including fruit, sweet, and cool flavors ([Zare, et al., 2018](#); [Harrell, et al., 2017b](#); [Bonhomme, et al., 2016](#); [Berg, 2016](#); [Bowler, et al., 2017](#); and [Krishnan-Sarin, et al., 2014](#)).
- ✓ In the journal **Addictive Behavior**, concluded that flavored vapor was directly related to a reduced amount of smoking amongst adults. ([Buu, et al. 2018](#))
- ✓ In **Substance Use & Misuse**, Professor Chen from the **University of Maryland Department of Public Health** concluded that users of *non-tobacco and non-menthol* flavors were significantly more likely to have quit smoking. ([Chen, et al. 2018](#))
- ✓ As smokers transition from combustible cigarettes to vapor products, they first tend to use tobacco and menthol-flavored e-liquids, but eventually transition to non-tobacco flavors as their dependency on combustible cigarettes decreases ([Farsalinos, et al., 2013b](#); [Truman, et al., 2018](#); [Adriaens, et al., 2017](#); [Simmons, et al., 2016](#)).
- ✓ As smokers wean themselves off of cigarettes with vapor products, they move toward non-tobacco flavored products to avoid the taste associated with tobacco flavors that they believe may cause them to relapse into smoking. ([Farsalinos, et al., 2013b](#); [Simmons, et al., 2016](#)).
- ✓ Studies conclude that flavors do not significantly increase youth interest in trying vapor products **and** that flavors are not in the top reasons why youth may experiment. ([Pepper, et al., 2016](#); [Pepper, et al., 2013](#)).

Bottom Line:

Making it harder for adults to access flavored vapor products will only hinder their attempts to quit and ensure that they smoke longer.

Health Risks of E-cigarettes

E-cigarettes are still fairly new, and more research is needed over a longer period of time to know what the long-term effects may be.

So far, research has found that using e-cigarette products is likely to be significantly less harmful than smoking regular cigarettes. This is mostly because e-cigarettes do not burn tobacco, a process that produces an estimated 7,000 chemicals, including at least 70 chemicals that cause cancer. But e-cigarettes do contain nicotine, which comes from tobacco and is very addictive.

While the possible long-term health effects of e-cigarettes aren't yet clear, there have been recent reports of serious lung disease in some people using e-cigarettes or other vaping devices. Symptoms have included:

- Cough, trouble breathing, or chest pain
- Nausea, vomiting, or diarrhea
- Fatigue, fever, or weight loss

Some cases have been severe enough to require hospitalization, and several people have died from their illness. However, it's not yet clear exactly how widespread these cases are, or if they all have the same cause. There are a huge number of different vaping devices on the market, and an even larger number of different chemicals (in the form of e-juice) that can be used in them, including ones that users sometimes add themselves. At this time, the main thing these cases have in common is that the people used e-cigarettes or other vaping devices. The US Centers for Disease Control and Prevention (CDC), the Food and Drug Administration (FDA), and several state health departments are looking into these cases to try to figure out what else they might have in common. For the latest information on this topic, see this notice from the CDC (https://www.cdc.gov/tobacco/basic_information/e-cigarettes/severe-lung-disease.html).

You can learn about answers to other questions about e-cigarettes in What Do We Know About E-cigarettes? (<https://www.cancer.org/cancer/cancer-causes/tobacco-and-cancer/e-cigarettes.html>)

Alliance**

AGE 31 FLAVOR QUIT WITH Blueberry
422 cresswell road Baltimore
Maryland 21225

Vaping is the only thing that got
me to quit smoking cigarettes when
nothing else worked!

WE ARE NOT BIG TOBACCO

WE ARE NOT JUUL 2

FLAVOR SAVED MY LIFE

Maryland Vapor Alliance

AGE 26 FLAVOR QUIT WITH MANU60

I smoked for 8 years from the
age of 14 to about 22. I tried

quitting multiple times but was unable to. I tried e-cigs
at about 22 and haven't had a cigarette in 4 years.
I definitely feel better and healthier since then.

Cameron Hayes

Calverton, MD 20611

The flavor that changed my life was looper, which is a delicious cereal flavor with a hint of milk. I am an adult who chose to quit smoking with this flavor. The benefits have been amazing for my health. Not waking up with smokers cough, being able to run without getting winded, are just some of many health benefits that come along with this life saving device.

As someone who smoked tobacco products, flavored vapors has been an excellent alternative that is far healthier. Removing flavor would most likely result in my returning to tobacco. As an American I believe in liberty & choice. I don't need a nanny state to police consenting adults making choices that benefit them. Do not ban flavored vaping! No nanny state!

cigarettes

I started smoking ^{cigarettes} because of anxiety issues. I hated the smell, taste, looks, and the horrible cough I had. When a friend introduced me to vapes (Not Juul), I felt like I had more of control of my addiction. Now I smoke vapes with 0 nicotine and only a few times a week. It helps when I want to relax and distress. Flavors helped me get off of ciggs.

Brian Simbini

510 Oakton Rd

Obenton MD 21113

Orange cream and Easy did it
Flavors if vape juice got my
wife and I off smoking and
decreased our nicotine ~~usage~~ significantly.

It helped us quit for our children
and our health. A Flavor ban
would send people back to cigarettes
and I cannot support that.

I have been using a vape flavor
Sugar Tannin for the last
2 years. I had a heart attack
at 42 years old. I had been
smoking cigarettes for the
last 30 years. I had to quit
fast and this flavor changed
my life, my health is so
much better, better than ever
and cigarettes were the main
cause of my heart attack. I
have lost 40 lbs since my
journey to getting better.
I can hot go back to cigarettes, I would
be disappointing myself and my children.

I've been vaping for five years now and the flavors are the only thing that really helped me.

Tobacco flavors only make you chase the cigarette taste even more where fruit, baked good, ect ~~allows~~ allows you to enjoy the experience without still craving the taste of tobacco. This industry is primarily made up of small mom & pop shops & this bill if passed will put most of them out of business!

Flavored E-liquids got me
off of chewing tobacco.
I was dipping for 8 years
and would still be consuming
at least a can a day
if not for flavored e-cigs.
It is a healthier alternative.
Banning flavored e-liquids can only
be interpreted as nepotism toward
tobacco companies. Make the
right choice!

BANNING FLAVORS DOES NOT ADDRESS
ANY ISSUE! IN FACT, IT CREATES MORE
ISSUES. IT STRIPS PEOPLE OF THE FREEDOM
TO CHOOSE WHAT IS RIGHT FOR THEM, TAKING
AWAY MY RIGHTS SO PEOPLE & PARENTS
DONT HAVE TO DO THEIR JOBS IS SIMPLY A
LAZY EXCUSE TO PUT THAT RESPONSIBILITY

ON OTHERS & OUR GOVERNMENT, THIS WILL ULTIMATELY LEAD
TO PEOPLE ATTEMPTING TO MAKE THEIR OWN FLAVORS.
NOT A VERY GOOD IDEA. THE BETTER SOLUTION IS TO
REALIZE THAT THIS IS NOT A NEW PROBLEM. AS
A HIGH SCHOOLER IN THE EARLY 90'S WE ALL SEEMED TO
SMOKE. YES, THATS A BAD THING, BUT IT DOES TO
SHOW THE PROBLEM WAS THERE WELL BEFORE VAPING.
IT EXISTED BECAUSE THE EASE OF BUYING FROM GAS
STATIONS. FRANKLY, THAT ISSUE CAN EASILY BE
ADDRESSED THROUGH LOCAL VAPE SHOPS. THE VAPE SHOPS
DO NOT WANT TO HAVE THIS ISSUE, ARE WILLING
TO ID & ON THEIR PART RE SMART ABOUT THIS!

Please do not ban
flavors. I could not
quit a 20 year habit
until I had flavors in
my vape. Vaping saved
my life. I got sick
and sent to the hospital
every year since my 20's.
As soon as I quit cigs.
using vapor products I no
longer got sick and not 1 case of pneumonia.
Please save my life.

Unlike most people I used Vaping to quit
Chewing Tobacco, so tobacco flavored vape juice
isn't appealing to me. Having different flavors
provides a larger group of people a healthier
alternative and cessation tool. Banning flavors
to keep kids from vaping is not the right
solution to the problem you seek to resolve.
I would suggest studying the technology & composition
of the liquids to understand why this is a healthier
option instead of making rash uninformed
policies.

finally able to quit using
a vape pen with tobacco
flavored juice 6 yrs ago

I have been vaping
for the last 6 yrs with no
health issues.

Please do not ban flavored
juices! I would probably go back to cigarettes 😞

I've been quit for 5 years now.
That would not have been possible
was it not for my Flavor Silent
Night. Years ago when I was quitting
I couldn't find something I liked so
I worked with the people at
my local shop and came up with
this. It's all I have used since
and if it goes away I worry I'll
go back to smoking.

I have smoked for 30 yrs. I've tried numerous times to quit smoking w/ regular & mentol flavored e-cigs & vape juice. They "non-flavored" devices & juice do NOT satisfy ~~me~~ my craving for a cig. Flavored vape juice (w/ nic) does help to satisfy the cravings. I was even better when vape shops could mix-flavors in house" per order. My favorite flavor is "Wu-Tang" & a sour melon flavor. It has helped me quit smoking for almost a year. Since I

Hager MD 21070

I use flavored vapes & have been for awhile now. I have not touched/smoked a cigarette in years b/c of the new options & flavors w/ vaping. Adults like the convenience and the better smell of vapes. There is no horrible "cigarette" smell & that is appealing to many adults. It's not just about quitting it is also about the "Stigma" that smokers have.

Vaping Got me off
chewing tobacco with
a much safer alternative.

Monthly cost is much cheaper
and being a college student this
is a plus. I would have
had mouth/throat cancer by
now if it weren't for my
flavored vape.

Matthew Blawie
36 Evans Ave
Timonium, MD 21111

I haven't had a cigarette in
10 years because of Vaping.
I use a mint and fruit flavor
because I don't like the
flavor of tobacco and
I find Menthol to be harsh.
I continue to vape as small
amounts of nicotine provided
via Vaping helps with
my stress and symptoms of ADHD.
I feel vaping is much easier
on my lungs than tobacco.

Baltimore, MD
21224

Vaping flavored liquids
helped me quit smoking
Starting with Strawberry and
Cream, Cucumber, Strawberry,
Mango, Tangerine, and more. Got
through 203 packs a day to
quitting within a couple
weeks. Tobacco and menthol
liquids did not help at
all or patches, gum, chantax, etc.
Tried them all. Vaping flavors
made the only difference.

- Jan Swain
