RE:	SUPPORT – House Bill 1387 – Certificates for Involuntary Admission – Licensed Certified Social Worker-Clinical

The Maryland Clinical Social Work Coalition (MdCSWC), sponsored by the Greater Washington Society for Clinical Social Work, represents the interests of more than 9,500 licensed clinical social workers in Maryland. On behalf of MdCSWC, we **strongly support** House Bill 1387.

House Bill 1387 authorizes a licensed certified social worker – clinical (LCSW-C) to be a second signatory on a certificate for involuntary admission. This modification of the involuntary admission requirements will help to ensure that individuals in need of admission have timely access to qualified health care professionals to evaluate their appropriateness for admission. Social workers comprise the largest number of front-line behavioral health care providers and are often the first responders in an emergency. LCSW-Cs are fully licensed and authorized to diagnose and treat all mental and behavioral health disorders independently and therefore have the education and training needed to appropriately perform the required evaluations.

LCSW'Cs can already sign Emergency Petitions (EP) to ensure that patients who are dangerous to themselves or others are taken to hospital ERs for evaluation. Most hospital ERs are thinly resourced and staffed, especially in the behavioral health area. Granting the LSCW-C to be a signatory for involuntary admission facilitates the admission process and makes more efficient the movement of patients to more appropriate treatment settings. This enhanced efficiency is especially desirable in smaller community hospitals and in rural and more remote settings where medical and behavioral health staffing may be especially thin and hard to access, which only delays care and increases costs.

House Bill 1387 does not alter the current requirement of a physician to be one of the signatories, thereby retaining the involvement of a physician in the evaluation process. House Bill 1387 is a prudent and much needed expansion of the current certification process for involuntary admission. A favorable report is requested.
