

**HB0283**

To whom it may concern,

**My name is Rob, I take kratom. I honestly believe it to be a life saver. I lost my son to brain cancer 6 years ago. Losing him literally almost killed me. The doctors put me on so many different kinds of medications to help me deal with everything. But I soon realized that the medication was giving me absolutely no life. It just numbed the pain and made me feel...blah. I hated it. Now with kratom in my life, I'm no longer on any medications. I have drive and ambition. The kratom helps with anxiety. Some days I'll wake up and be so sad I don't want to do that day, I can take kratom and be up and ready to go. It's given me a second chance on life. And it's a plant. It's from this earth. It means so much to me. Thank you for your time**
