

Hi, my name is Oliver Flores, I am 44 years old, live in Bloomfield New Jersey and I work in the medical field. For years I have suffered from severe Depression and Anxiety. Because of the stigma associated with these disorders, I chose to suffer in silence and never seek medical help. For years I self-medicated with alcohol and drugs, this led me to two suicide attempts and other medical problems. I stumbled on to Kratom by mistake and I thank God that I did. Because, Kratom helped me find the peace I so desperately needed. The voices in my head have stopped. With a new look into life, now, in my spare time I have become more productive and exchanged alcohol for wood working. Please don't take Kratom away.

Thanks for reading, Oliver Flores.
