

From A Brother from Kentucky but Kratom saved me! Years ago I got hurt and was giving pain meds and it went downhill from there. After years of trying to come off friends got me methadone and that was even worse for me after many years of trying to get off, i was told about Kratom ! Thank GOD, because of the gift of this plant that GOD put on this earth I am off METHADONE! I'm free from that monkey and you cannot take an overdose of Kratom it will make you sick but not kill you and it does not make you High it just help calm a person down and helps with the pain without the high feeling you get from pain meds ! You can walk, work ,drive it doesn't affect you like a chemical substance that makes you High! Take it for yourself if you don't believe me and you will see! GODBLESS you and thanks for your time!
