Hello My Name is Schneika Brown .I'm a Great Friend of Danshaun's Family who became family over 11 years ago and for the period of time that I had to share with him he was a loving child brother nephew cousin etc. But on today I'm writing this letter not to tell you how awesome Danshaun was but to let you know there may be many more Danshaun's around the world but we would love to prevent there families from losing them the way we lost him and hurting the way we are behind his lost. I'm asking that on this day March 4,2020 that Danshaun's Law will be passed in honor of him and the many other little kids around the world if we can just save one life it would make a big difference if justice by creating this law and that any who loses there license from reckless endangerment should not be able to operate a moving vehicle again .

Thank You in advance
