

RE: HB 743 Universal School Start Act of 2020 - House Ways & Means

Position: Support

February 19, 2020

To whom it may concern,

As a working parent living in Baltimore County, I wanted to express my support for keeping the start of the school year to be after Labor Day.

I much prefer to have the kids off when the weather is warm and there are camps to entertain them/available, vs having to cobble together care during the random "teacher work days" that pop up during the school year.

Thanks,

Libby Horne
