RE: **SUPPORT** – House Bill 1072 – *Prince George's County – County Income Tax – Credit for Primary and Specialty Health Care Providers*

The Maryland State Medical Society (MedChi), the largest physician organization in Maryland, **supports** House Bill 1072.

House Bill 1072 authorizes Prince George's County to establish a nonrefundable income tax credit against the county income tax equal to up to \$3,000 for each primary or specialty health care provider who during the entire tax year is domiciled within the county and employed by a medical practice with a primary office located within the 20743 zip code. Access to care within this zip code has been particularly challenging and the bill would create an incentive for primary and specialty care providers to locate in this area. The tax credit is against the county income tax and therefore does not impact state revenues. MedChi urges a favorable report.
