HB1171: Labor and Employment - Maryland Employee Protection Plan for Vaccine Refusal

SUPPORT

Dear Delegate Dereck Davis and members of Economic Matters Committee,

I urge you to please SUPPORT bill HB1171! This bill will protect every employee in our state from being fired if they do not get the new COVID19 vaccine. It also has a protection for employers stating that if an employee does not get the shot and gets COVID19 at work, they cannot sue their boss. I believe it is a win-win!

Thank you for your work!
