

SUPPORT HB 1171

Hello, my name is Paige Pierce, I'm a mother of two young children and a fellow Marylander-located in Crofton. I am contacting the committee today regarding HB 1171. I support this bill and urge this bill and others similar to it to be supported in the future. If my husband were to lose his job for not accepting a medical product like the COVID-19 vaccination, we would be on the streets, as would many in the same situation as me. It is of the utmost importance that the livelihood of the people be protected and that it is not threatened for a decision that is between oneself and their healthcare provider. Please do not let an opportunity to do good for the people of Maryland pass you by.

Thank you for your time,

Paige Pierce
