My name is Stephen Cleghorn. I live in Baltimore City and am active in my Church (St Matthew Catholic on Loch Raven) and former president of the Pastoral Council. The COVID19 Pandemic has been hard on so many individuals and businesses. This is a time we really need our elected officials to establish programs to help low wage workers and our economy. I am very concerned about the hundreds of workers at Marshall BWI airport who have been laid off from their jobs through no fault of their own. I have used the airport many times to visit family down south and always had a great experience with airport staff. They deserve to get their jobs back and not be permanently laid off. And so I urge you to support the HB1012 BWI-Thurgood Marshall Workers' Right to Reinstatement Act.
