

UNfavorable for HB0130

vince mcavoy po box 41075 baltimore md

Dear Committee,

I urge an UNfavorable on HB130.

It is unseemly to create a **State**-created panel or commission for how people have sexual relations. Polygamy & a swingers "Commission" next?

This bill aims to claim Marylanders somehow discriminate against others so that the "perception" by a sub-section of society (0.5% to 4%, depending upon source cited) of being discriminated on when in fact that sub-section has among the highest rates of mental illness, drug use and disordered lifestyles in society.

The State should not enter into a Commission promoting a sub-sector rife with depression, and a host of physical harm & disease. HIV, ruptured anal passages, drug abuse and other STDs are highest in this community. As is domestic violence; per CDC bisexuals & lesbians have the highest rates of domestic violence.

And Planned Parenthood is encouraging transgenderism and profits from hormone treatments in children. Transgenderism promotes the amputation on children's viable, healthy body parts on children as young as THREE, sexualizing children before they can spell their own - as yet UNamputated - body parts.

To celebrate this is to bring harm to our children. Some cultures are mute when it comes to harming children. In Maryland and the United States, we do NOT encourage HARMING CHILDREN !

None of you are experts in family law. Few of you are devoutly religious. And politicians are well known for reacting to the "now", because they fear re-election issues and are **scared of controversy**.

If you've ever taken a moment to stop & think about how tragically messed up many our Maryland children are, vote this bill down.

If you ever stop & wonder -- when the world is coming unglued from executive overreach pushing our country into a horrible economic future, killing 30-40% of small businesses in Maryland -- ask yourself if this bill even **close** to what's important in Maryland right now.... who someone has sex with is a priority in the midst of a global crisis?

Insanity.

Please do your job and vote down this bill.

Amongst this sub-section are those who developed said identities of this sub-sector while in prison (due to criminal behavior). And on the issue of criminal behavior, in Maryland, at this moment, these activities were considered felonies until FIVE MONTHS AGO

Bake the Cake

The recent trend of weaponizing legal suits against businesses, churches and traditional organizations has spurred frivolous suits reaching the U.S. Supreme Court. On page 2 of the bill (and elsewhere) the mention of “prohibit discrimination” has been translated in courts of forcing through legal coercion, financial coercion or criminally-assaultive behavior to ramrod people to adopt attitudes, efforts of expression or employment-tyranny. Such efforts have promoted SCOTUS hearings & decisions such as with a Colorado baker (i.e. – #BakeTheCake).

Finally, all Marylanders do not promote these variant lifestyles. The choice to not promote may be personal, it may be cultural, it may be spiritual, it may be seeing something as societally harmful. This is America. It is their right.

Though I got the zoom link & was signed up for oral testimony, I was denied the ability to speak on the bill. Is that how we treat those who disagree?

From the website: All bills heard on January 14 will be sponsor only, meaning that no oral testimony will be heard aside from the sponsor of the bill.

This bill was CHANGED from last year & should have had a full hearing where nuances could be respectfully exchanged. The amendment to the bill will cause more transgenderism to be promoted in Maryland which will – not may – will HARM CHILDREN!

Since homosexuality, adultery, prostitution and pornography undermine the foundations of the family, the basis of society, the State is entitled to use its power to ban or limit them. The State has the duty to uphold public morality.

CULTURAL CHANGES in Maryland

In the past, Maryland has shown a multitude of bills clamoring for inclusivity. Maryland is among the most inclusive states in the Union.

CURRENT

Transgender culture, processes & allowances in the medical & public sector are leading to profiteering from a body-part-amputation industry, under the guise of offering a panacea to children going thru the natural process of adolescence.

Dangers of the transgender movement well-documented

“More than half of transgender male teens who participated in surveys have reported attempting suicide in their lifetime...29.9% of transgender female teens said they had attempted suicide...

nonbinary youth, 41.8% of those tested stated that they have attempted suicide at some point of their lives...is the embodiment of self-hatred...[suicide rate] are off-the-charts high.” <https://youtu.be/iPLY2SqK7UE?t=240>

What should be of interest to the House HGO is that only 2 years ago, the outcomes of transgender re-assignment were presented in an amicus to the U.S. Supreme Court, noting an “increased psychiatric hospitalization, a sharp increase in mortality as well as criminal convictions, with transgenders 19 times more likely to kill themselves.”

Trans Industry Profiteering

This fad is being promoted by Planned Parenthood, according to Wall Street Journal reporter Abigail Shrier, for profit through hormone treatment, bloodwork, and other opportunities for profit.

FUTURE

Just consider the future where Drag Queen Story Hour for 3-year-old children in public schools and libraries. At these events, homosexual activists teach toddlers about unnatural behavior. As one drag queen openly confessed at a City Council Meeting in Lafayette, Louisiana: “This is going to be the grooming of the next generation.”

Children in Danger

Being ignorant to the biological fact of a child's biological sex is a danger to children. The dangers lie in making a process so free of checks & balances that the process embraces indoctrination while removing self-reflection to minors who may be experiencing normal childhood challenges & pressures.

There is also danger in another sense, where those escaping the scrutiny of free association in a lockdown COVID era. Can we absolutely rule out these transgender procedures/treatments/surgeries may end up being done remotely in the absence of light on the process?

#ProtectJamesYounger

Take the case of James Younger in Texas. The case garnered the attention of Texas' Attorney General & Governor.

Forcing kids to transition: two horrific cases that EVERYONE needs to know

<https://youtu.be/9sV2zeE4X08>

A father was gravely concerned about the “sexual mutilation of his own son [while] all of his authority figures – his mother, his teacher, the librarian at school, the police officer at school, the principals at school – say he's a girl.....[James' father was] the only authority figure in his life that tells him the truth-- that he's a boy” https://youtu.be/Jdxc_chdwIo

The James Younger case involves the attempts of a child-indoctrinating, parental-alienating mother to transition her son (physically, culturally, biologically) into a girl at AGE THREE. Leaving the biological sex open to a non-binary option (children are male or female) could be used by any single-mother bent on fomenting a child custody case to evade the rightful child custody merits of a fit father. <https://youtu.be/iPLY2SqK7UE?t=1310>

And the possibility of the objective, scientifically-provable biological sex of a child being gas-lighted into something heinous will increase if this bill is passed.

To disregard the known consequences and ignore rightful projections related to the unintended consequences of misleading, lying as well as sexually & physically manipulating Maryland's own children for the benefit of an extremely small, child-amputating sector is wrongful.

Inclusive Maryland Agencies

The screenshot shows the HUD.gov website page for LGBTQ Resources. The page features a dark blue header with the HUD logo and navigation links. The main content area is white and contains the following text:

Home / HUD LGBTQ Resources

HUD LGBTQ RESOURCES

Part of HUD's mission is to give every person and family access to a safe, secure and affordable home including ensuring fair and equal access to housing for all Americans, regardless of their sexual orientation, gender identity or marital status. HUD is working to promote, strengthen and create opportunities for LGBTQ inclusion in its federal programs and regulations.

As the Nation's housing agency, it is our responsibility to ensure that every person participating in HUD's programs has equal access to them without being arbitrarily excluded.

About HUD's Equal Access Rules:

On February 3, 2012, HUD issued the first of three rules focusing on ensuring fair and equal access to housing for all Americans, regardless of their sexual orientation, gender identity, nonconformance with gender stereotypes, or marital status. The first rule, "Equal Access to Housing in HUD Programs Regardless of Sexual Orientation or Gender Identity" required that a determination of eligibility for housing that is assisted by HUD or subject to a mortgage insured by the Federal Housing Administration shall be made in accordance with the eligibility requirements provided for such program by HUD, and such housing shall be made available without regard to actual or perceived sexual orientation, gender identity, or marital status. The rule also included a definition for sexual orientation and gender identity, and expanded the definition of family in most of HUD's programs.

State websites detail non-discrimination as do the other businesses and organizations throughout the state.

The Reality

In Maryland, we are among the most inclusive states in the Union. This is echoed at federal level and state level. NO class, no type, no individual will be free of bad days and wrongful people. That does not mean a law needs to be passed nor can any law make everyone's day free of malice, greed, discourtesy or even evil from mean-spirited people. Sometimes these things happen for no reason. Sometimes because people bring this upon themselves with an entitled attitude. Marylanders should not be surprised that a group who experiences higher (to much higher) than normal addiction, personality disorders, mental illness and drug abuse also experiences a spirit of oppression, victimhood or depression. We treat this sub-sector well.

I urge an unfavorable on providing special privileges based on how someone has sex. Maryland's societal bonds are based on human family, not animal nature.
