Honorable Senator Pinsky - Chair, Honorable Senator Kagan - Vice Chair, Honorable committee members,

I feel this bill is unnecessary. This bill follows the "racial equity" narrative which in and of itself is divisive. We do not need any more division in our country. Staffing needs to be per party not by race and needs to be provided fairly. Having experience at any level should not be necessary and the less experience one has with the election system, the more open minded they will be and expose that which is not done fairly. Please OPPOSE this bill.

Sincerely,

Nelda Fink, 8372 Norwood Dr, Millersville
