HB302 Favorable

To whom it may concern,

My name is Ryan Nagi and I am in favor of HB302. Our company performs septic inspections for property transfers in Maryland as well as septic installs and repairs in the southern Maryland area. I am in favor of the bill because I believe licensing of on-site wastewater professionals will provide more accountability of individuals involved in the wastewater industry. Standardizing protocols and having a code of ethics and a regulating board can only improve professionalism and help bolster consumer confidence.
