RE: SB0084 – Pharmacists - Administration of Self-Administered Medications and Maintenance Injectable Medications - Letter of Opposition

Dear Chair Pinsky and Committee members:

The Maryland Board of Nursing (“the Board”) respectfully submits this letter of opposition for Senate Bill 84 (SB0084) - Pharmacists - Administration of Self-Administered Medications and Maintenance Injectable Medications. This bill would allow a pharmacist who meets the requirements of certain regulations to administer a maintenance injectable medication to a patient under certain circumstances; requiring the State Board of Pharmacy, on or before September 1, 2022, and in consultation with the State Board of Physicians and the State Board of Nursing, to adopt certain regulations for pharmacists requiring pharmacists to complete a certain training program in order to administer a maintenance injectable medication.

The Board is concerned that maintenance injectable medications, as defined in the bill, may include various high risk medications that require on-going monitoring such as psychotropic, insulin and anticoagulants. This raises serious patient safety concerns. Additionally, administration of these medications often requires pre and post assessment of the patient’s medical condition, raising additional concerns regarding the pharmacist’s scope of practice and training in conducting health assessments.

Furthermore, a pharmacist could potentially go several years without receiving updated training related to administration of the medication, as long as the training was completed in the formal educational program. The bill’s requirement that the regulations “shall” waive the training for a pharmacist who has already undergone training as part of their formal educational program does not allow for a time restriction or required training updates. This too poses serious safety concerns for the patient.

For the reasons discussed above, the Board of Nursing respectfully submits this letter of opposition to SB0084.

I hope this information is useful. For more information, please contact Iman Farid, Health Policy Analyst, at (410) 585 – 1536 (iman.farid@maryland.gov) or Rhonda Scott, Deputy Director, at (410) 585 – 1953 (rhonda.scott2@maryland.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "G. Hicks", with a long horizontal flourish extending to the left.

Gary N. Hicks
Board President
