

**Written Testimony APPROVING SB 920 – County Health Officers – Procedures and Oversight**  
**Nelda Fink, 8372 Norwood Dr, Millersville**  
**MD District 32**

SB 920 needs to be approved and I support because the County Health officers have operated totally on their own during the past year, under the guise of the State of Emergency. Placing the whole control of the shutdowns under the control of 1 person in each county without any oversight or guidelines is reckless and unconstitutional. The procedures and oversight established in this bill are a good start and will be very helpful in protecting the People of Maryland from unjust practices that were experienced during 2020. I completely support this bill and encourage the committee to APPROVE it as well.

Please pass this bill!

I approve completely!

Sincerely,

Nelda Fink

**APPROVING SB 920 – County Health Officers – Procedures and Oversight**
