

HB480
FAVORABLE

The Honorable Kumar Barve, Chair
Room 251, House Office Building
Annapolis, MD 21401

As introduced, HB480 would prohibit a person from stopping, standing, or parking a vehicle that is not an EV in a parking space that is designated for the use of an EV. In addition, HB480 includes provisions about signage and ensuring compliance with relevant local and federal requirements.

As an owner of an electric vehicle, I have encountered internal combustion engine vehicles (ICE) parking in areas designated for electric vehicles. Currently, there is little that can be done to fine or tow an ICE vehicle. Proper signage such as that proposed would help out a lot.

I ask that your committee report out this bill favorably.
