Finance Committee
Maryland Senate
11 Bladen Street
Room 3, East Wing
Annapolis, MD 21401

RE: **SUPPORT FOR SB 567** – Telehealth Services – Expansion

Dear Chairperson Kelley and Distinguished Members of the Senate Finance Committee:

I want to thank you for taking my written statement of support for SB 567 on telehealth reimbursement to be entered into the public hearing record. My name is Vivian Morgan and I am a Licensed Professional Counselor who resides and practices in Baltimore County, MD.

Reimbursement for telebehavioral health modalities is important to me because I have realized how critical telehealth is to providing care for my clients. Teletherapy is necessary. This Compact is important to me because this service delivery method is necessary for some people due to transportation, health, socio-economic, and other issues that prohibit travel. Mental health is as important as other health issues and should be treated as such. I work with many high school students who go to school out of state and are adjusting to significant life changes and need the support of their community providers. I also believe that individuals have the right to find practitioners who fit their need, no matter where they are located. Mental health services have a component in which the relationship of the counselor and client is critical to the efficacy of care.

We are still in the throes of a global pandemic and the need for health care and mental health services has never been greater. COVID-19 has revealed systemic flaws in our mental health services for providers and clients alike. It is imperative that we remove barriers to life saving services in a responsible and urgent manner.

This bill will update what Maryland health care services the Medical Assistance Program is required to provide through telehealth by broadening the circumstances under which the Program is required to provide telehealth and telebehavioral health. It is critical to update current Maryland code to align with best practices in our field by requiring certain insurers, nonprofit health service plans, and health maintenance organizations to reimburse health care services provided through telehealth.

While we are working to upload and implement the Counseling Compact in this state and throughout the U.S., this immediate action, removing barriers to critical supports and supporting mental health providers by broadening reimbursements in Maryland, is essential for the wellbeing of residents, families, and a social services system overburdened by staggering need.

I strongly urge you to support SB 567.

Sincerely,

[NAME]
