The Honorable Del. Shane Pendergrass, Chairperson  
**Health and Government Operations**  
Maryland House of Delegates  
6 Bladen St. RM. 241  
Annapolis, MD 21401

RE: **SUPPORT FOR HB 732** – Health Care Practitioners - Telehealth - Out-of-State Health Care Practitioners

Dear Chairperson Pendergrass and Distinguished Members of the Health and Government Operations Committee:

I want to thank you for taking my written statement of support for HB 732 on telehealth & out-of-state health care practitioners to be entered into the public hearing record. My name is Carol ZA McGinnis and I am an Associate Professor and mental health practitioner who resides and practices in Baltimore County, Maryland.

Telebehavioral health modalities are important to me because I understand how difficult it can be to find help that is needed by my fellow citizens. Many times, a client may be in need of immediate services and the wait time for an in-State practitioner can be much too long given the seriousness of their symptoms. Some diagnoses and problems require specialized mental health services (i.e. eating disorders, substance abuse, marriage/couple counseling) that may fall outside of the competence of an available provider.

We are still in the throes of a global pandemic and the need for health care and mental health services has never been greater. COVID-19 has revealed systemic flaws in our mental health services for providers and clients alike. It is imperative that we remove barriers to life saving services in a responsible and urgent manner.

This bill will authorize an out-of-state health care practitioner to provide telebehavioral health services to a patient located in the state in accordance with the state practice act. This legislation also requires the health occupations board to register an out-of-state health care practitioner, allowing for necessary oversight and monitoring of out-of-state practice.

While we are working to upload and implement the Counseling Compact in this state and throughout the U.S., this immediate action, removing barriers to critical supports, is essential for the wellbeing of Maryland residents, families, and a social services system overburdened by staggering need.

I strongly urge you to support telebehavioral health services and HB 732.

Sincerely,

Carol ZA McGinnis PhD, SIP, BC-TMH, NCC, LCPC  
2020-2021 Maryland Counseling Association President  
11 Dalebrook Drive, Phoenix, MD 21131
