

The Health and Government Operations Committee
11 Bladen Street
Annapolis, MD 21401

Dear Committee,

Please vote **in favor** of HB1150, which introduces important civil protections for citizens who choose not to take a particular vaccine. Marylanders should always have bodily autonomy and still be able to travel, attend schools, and be employed without fear of being forced by the government to undergo a medical procedure. All medical procedures require personal discernment in weighing risks versus benefits, and vaccination is no different. This bill is a critical step in protecting the rights of Marylanders.

Sincerely,
Joseph Gresock
