

Support HB 1198 Public Health - Abortion - Drug-Induced Abortions

March 17, 2021

Brigitta Mullican, 1947 Lewis Ave, Rockville, MD 20851-District 17

Dear Delegate Cox and Health and Government Operations Committee,

Please support HB 1109 - Health - Abortion - Ultrasound and Waiting Period.

I believe every Legislator should be protecting the right for all to live. Every life is precious. Each of us is alive because a loving mother gave birth and protected us.

The chemical abortion pills on young women and teen girls, including human trafficking victims without any oversight or regulation is dangerous. A chemical abortion is four times more dangerous than a surgical abortion. Pimps and boyfriends can order these pills and coerce or even use these pills like date rape pills.

Please protect women from this drug for the purpose of aborting a human life.
