RE: HB 970 – PSYCHOLOGY INTERJURISDICTIONAL COMPACT

Dear Delegate Pendergrass and Members of the Health and Government Operations Committee:

My name is Dr. Paul Berman. I am a licensed psychologist in Maryland. My wife and I, both psychologists, have a forensic/court-related psychology practice in Towson, Maryland. I was also the Director of the Towson Addictions Center, an outpatient substance abuse education and treatment program for more than 30 years. In addition, I work part-time for the Maryland Psychological Association as Professional Affairs Officer.

I am honored to be here today on behalf of the Maryland Psychological Association and the 1000 member psychologists to testify in **support of House Bill 970 – the Psychology Interjurisdictional Compact.**

I will spend a few minutes discussing this interstate compact, how it works, and why the Maryland Psychological Association is supporting the compact. I will also spend a few minutes talking about the benefits of telehealth, and specifically, this interstate compact which allows psychologists to provide telehealth services across state and jurisdictional boundaries. I will explain the credentialing process and the disciplinary process.

I would like to start by talking about the history and purpose of the Psychology Interjurisdictional Compact – HB 970.

HB 970, The Psychology Interjurisdictional Compact, or PSYPACT, is an interstate compact, or an agreement between member states, that is designed to increase access to mental health care services. To join this psychology interstate compact, a state must enact the model statute into law. The model statute is HB 970, sponsored by Delegates Johnson and Cullison and that is what we are asking you to support.

PSYPACT was developed with the assistance of local and national psychological associations, practicing psychologists, consumer groups, the National Governors Association, the Council of State Governments and the psychological regulatory community.

The Honorable Shane Pendergrass, Chair
Members of HGO
Re: HB 970

Psychologists licensed in their home state which is a member of PSYPACT will be able to practice into other member states via two Authorizations (Authority to Practice Interjurisdictional Telepsychology and/or Temporary Authorization to Practice) issued by the PSYPACT Commission. This interstate compact increases access to mental health care by creating a process to approve and regulate the delivery of telepsychology and the temporary practice of psychology by doctoral degree psychologists across state and territorial boundaries into other PSYPACT states. The purpose of PSYPACT is to increase public access to needed psychological services by increasing access to care and providing mechanisms for continuity of care all while ensuring a higher degree of consumer protection across state lines.

PSYPACT provides for patient protection by certifying that only doctoral degree psychologists can practice in PSYPACT and certifies that each psychologist applicant is competent to provide services and is free of criminal and disciplinary history. PSYPACT is governed by the Psychology Interjurisdictional Compact Commission, a governmental entity made up of the member states. Each state appoints one member of its Licensing Board to the Commission which meets annually. If this bill is enacted into law, then Maryland appoints one member to the PSYPACT Commission.

Licensed psychologists in any PSYPACT state who wish to participate with PSYPACT must meet the following credentials (please see Attachment 1 which includes materials which demonstrate that the doctoral degree is the required degree for participation in PSYPACT):

- Possess a current, full, unrestricted license in their Home State which is a Compact State;
- Possess a doctoral degree from an American Psychological Association/Canadian Psychological Association or National Register accredited graduate school program;
- Have no history of adverse action that violates the rules of the Commission;
- Have no criminal record;
- Possess a current active E. Passport certificate or IPC Certificate (depending on if the psychologist is practicing telepsychology or physically practicing in a distant jurisdiction temporarily);
- Provide attestation in regard to areas of intended practice, criminal background, competence in telepsychology technology, etc.
- Provide release of information to allow for primary source verification; and
- Meet other criteria as defined by the Commission.

Maryland is the only jurisdiction in our region which is not yet included in PSYPACT – the District of Columbia, Pennsylvania, Delaware, and Virginia are all active PSYPACT members (please see Attachment 2). **West Virginia is expected to introduce PSYPACT in this legislative session.** PSYPACT has been enacted in a total of 16 states/jurisdictions including: Arizona, Utah, Nevada, Colorado, Nebraska, Missouri, Georgia, Delaware, Texas, New Hampshire, Oklahoma, Illinois, Pennsylvania, Virginia, the District of Columbia, and North Carolina. *In addition, fourteen states, including Maryland, have introduced legislation this year (2021).*

The Honorable Shane Pendergrass, Chair
Members of HGO
Re: HB 970

We know there is considerable support for mental health interstate compacts and believe the introduction of HB 970 is particularly timely. This administration has made it abundantly clear how important interstate compacts are for access to behavioral health services. In addition, they have publicly stated that **their bill is not a substitute for interstate compacts**.

In addition, we know that the General Assembly the General Assembly passed Senate Bill 402 during the 2020 session, with Sponsors Senator Kagan and Senator Lam, and clearly recognized the importance of interstate compacts when it stated: "...it is the intent of the General Assembly that the Governor shall develop and implement a plan to facilitate the joining of the State with adjacent states and jurisdictions in interstate compacts regulating health care practitioners for the purpose of improving patient access to health care practitioners in State communities experiencing a health care practitioner shortage." (Please see Attachment 3.)

Research has shown that telehealth services are effective, and offer additional benefits such as increased accessibility, flexibility, and affordability.

PSYPACT will benefit Maryland's residents who live near bordering states and the District of Columbia, those in rural areas, those who lack access to specialty care (addictions, autism spectrum disorder, language barriers), those with transportation or mobility issues, individuals with significant time constraints such as caregivers, and those concerned about seeking treatment due to potential stigma of mental health care.

COVID-19 has forcefully highlighted the importance of an interstate compact like PSYPACT which allows for continuity of mental health and substance use treatment in situations when someone needs to relocate. People who have lost their jobs and been forced to move, college students who have started and stopped school and returned home, people who have had to temporarily leave Maryland to take care of a sick family member, and people in similar circumstances have suddenly found their mental health and substance use treatment interrupted by this global pandemic. PSYPACT allows people who move between states – whether temporarily or permanently – as a result of illness, family, financial, education, business, or other reasons, to maintain consistent mental health and substance use treatment.

I want to make clear that this interstate compact, PSYPACT, has the same credentialing requirements as those in Maryland. There is no difference between PSYPACT credentialing requirements and Maryland licensing requirements for psychologists. Both require:

- doctoral degree in psychology from a program that was accredited by APA/CPA or designated as a psychology program by the ASPPB/ National Register Joint Designation Committee at time of conferral; or deemed to be equivalent by a recognized foreign credential evaluation service
- two years supervised training.

Article VII within HB 970 details the Adverse Action/Disciplinary Process. This section covers how the compact, home and receiving states conduct and report adverse actions as well as the consequences for a psychologist who receives adverse actions. (Please see Attachments 4, 5, 6.)

- The home state may take adverse actions against a psychologist's license.

The Honorable Shane Pendergrass, Chair

Members of HGO

Re: HB 970

- If home state does take adverse action a psychologist's authority to practice Interjurisdictional telepsychology is terminated and the e. Passport is revoked. In addition, that psychologist's temporary practice is terminated, and the IPC is revoked.
- A home state's psychology regulatory authority shall investigate and take appropriate action with respect to reported inappropriate conduct engaged in by a licensee which occurred in a receiving state as it would if such conduct had occurred by a licensee within the home state. In such cases, the home state's law shall control in determining any adverse action against a psychologist's license.
- A receiving state may take adverse action on a psychologist's authority to practice interjurisdictional telepsychology and temporary authorization to practice within that receiving state.
- If Discipline is reported against a psychologist, the psychologist will not be eligible for telepsychology or temporary practice in accordance with the rules of the Commission.
- All adverse actions taken are electronically reported to the Commission in accordance with the rules of the Commission.
- Nothing in the compact will override a compact state's decision that a psychologist's participation in an alternative program may be used in lieu of adverse action and that such participation shall remain non-public if required by the compact state's law. The psychologist must cease providing services while in an alternative program.

HB 970 is clear and specific with regard to our licensing board's responsibilities regarding out-of-state licensees. (Please see Attachment 7.)

- Investigation by the BoE of psychologists who practice into Maryland via telehealth is discretionary. The BoE is not required by PSYPACT to investigate complaints made against licensed psychologists who practice into Maryland via telehealth. Complaints submitted to the Maryland BoE against out-of-state licensees may be investigated by the BoE, or the BoE can forward the complaint to the licensee's Home state for investigation via the electronic process developed by PSYPACT.
- The BoE, however, is required to investigate complaints made against licensed psychologists from other states who practice in Maryland, face-to-face, under the auspices of PSYPACT and the 30 day/year Temporary Authorization to Practice (TAP).

The Maryland Psychological Association urges you to support HB 970 – the Psychology Interjurisdictional Compact. Thank you for your time and attention.

This section also requires a psychologist practicing under the compact must practice within the areas of competencies and is subject to the scope of practice of the receiving state.

A receiving state may, in accordance with that state’s due process law, limit or revoke a psychologist’s authority to practice interjurisdictional telepsychology in the receiving state and may take any other necessary actions under the receiving state’s applicable law to protect the health and safety of the receiving state’s citizens. If a receiving state takes action, the state shall promptly notify the home state and the Commission.

If a psychologist’s license in any home state or another compact state or any authority to practice interjurisdictional telepsychology in any receiving state is restricted, suspended or otherwise limited, the E. - A license revoked, surrendered in lieu of discipline or suspended following investigation of all services granted through the compact would be terminated.
- Nothing in the compact will override a compact state's decision that a psychologist's participation in an alternative program may be used in lieu of adverse action and that such participation shall remain non-public if required by the compact state's law. The psychologist must cease providing services while in an alternative program.

Article VIII

PSYPACT AND DISCIPLINE:

Understanding the Role Each State Plays

One of the main purposes of PSYPACT is provide states with a regulatory mechanism designed to address disciplinary issues that occur across state lines in other compact states. PSYPACT specifies the role each state plays concerning disciplinary issues related to the practice of telepsychology and temporary in-person, face-to-face practice across state lines in PSYPACT states.

TELEPSYCHOLOGY

PSYPACT requires that a psychologist obtain an **AUTHORITY TO PRACTICE INTERJURISDICTIONAL TELEPSYCHOLOGY (APT)**. Psychologists can then practice telepsychology into a:

AND

TEMPORARY PRACTICE

PSYPACT requires that a psychologist obtain a **TEMPORARY AUTHORIZATION TO PRACTICE (TAP)**. Psychologists can then practice temporarily into a:

RECEIVING STATE

As a requirement of the APT, a psychologist must obtain an E.Passport Certificate to practice telepsychology into a **RECEIVING STATE**.

A psychologist is subject to the **RECEIVING STATES** scope of practice.

A **RECEIVING STATE** can limit or revoke a psychologist's Authority to Practice Interjurisdictional Telepsychology.

If a **RECEIVING STATE** takes action, it will notify the **HOME STATE** and the PSYPACT Commission.

A **HOME STATE** will investigate and take appropriate action on reported inappropriate conduct in a **RECEIVING STATE** as it would if such conduct had occurred within the **HOME STATE**.

A **HOME STATES** law will control in determining any adverse action against a psychologist's license.

HOME STATE

A psychologist must hold a current, full and unrestricted license to practice psychology in a **HOME STATE**, which has enacted PSYPACT.

A **HOME STATE** maintains authority over the license of any psychologist practicing under the authority of PSYPACT.

A **HOME STATE** can impose adverse action against a psychologist's license issued by the **HOME STATE**.

All **HOME STATE** disciplinary orders which impose adverse action are reported to the PSYPACT Commission.

DISTANT STATE

As a requirement of TAP, a psychologist must obtain an Interjurisdictional Practice Certificate (IPC) to conduct temporary practice in a **DISTANT STATE**.

A psychologist must practice within the scope of practice of the **DISTANT STATE** and is subject to the **DISTANT STATE'S** authority and law.

A **DISTANT STATE** can limit, revoke or take adverse action on a psychologist's Temporary Authorization to Practice.

If a **DISTANT STATE** takes action, it will notify the **HOME STATE** and the PSYPACT Commission.

A **DISTANT STATE** will investigate and take appropriate action on reported inappropriate conduct which occurred in that **DISTANT STATE** as it would if such conduct had occurred within the **HOME STATE**.

A **DISTANT STATE'S** law will control in determining any adverse action against a psychologist's Temporary Authorization to Practice.

If a psychologist's license in any **HOME STATE**, another **COMPACT STATE**, or Authority to Practice Interjurisdictional Telepsychology in any **RECEIVING STATE**, is restricted, suspended or otherwise limited, the E.Passport will also be revoked, and the psychologist will not be eligible to practice telepsychology in a **COMPACT STATE** under the Authority to Practice Interjurisdictional Telepsychology.

If a psychologist's license in any **HOME STATE**, another **COMPACT STATE**, or Temporary Authorization to Practice in any **DISTANT STATE**, is restricted, suspended or otherwise limited, the IPC will also be revoked, and the psychologist will not be eligible to practice in a **COMPACT STATE** under the Temporary Authorization to Practice.

3 THE HEALTH AND SAFETY OF THE DISTANT STATE'S CITIZENS. IF A DISTANT STATE
4 TAKES ACTION, THE STATE SHALL PROMPTLY NOTIFY THE HOME STATE AND THE
5 COMMISSION.

6 (E) IF A PSYCHOLOGIST'S LICENSE IN ANY HOME STATE OR ANOTHER
7 COMPACT STATE, OR ANY TEMPORARY AUTHORIZATION TO PRACTICE IN ANY
8 DISTANT STATE, IS RESTRICTED, SUSPENDED, OR OTHERWISE LIMITED, THE IPC
9 SHALL BE REVOKED AND THEREFORE THE PSYCHOLOGIST SHALL NOT BE ELIGIBLE

8 ACTION SHALL BE REPORTED TO THE COMMISSION IN ACCORDANCE WITH THE
9 RULES PROMULGATED BY THE COMMISSION. A COMPACT STATE SHALL REPORT
10 ADVERSE ACTIONS IN ACCORDANCE WITH THE RULES OF THE COMMISSION.

20 RECEIVING STATE AS IT WOULD IF SUCH CONDUCT HAD OCCURRED BY A LICENSEE
21 WITHIN THE HOME STATE. IN SUCH CASES, THE HOME STATE'S LAW SHALL CONTROL
22 IN DETERMINING ANY ADVERSE ACTION AGAINST A PSYCHOLOGIST'S LICENSE.

23 (E) A DISTANT STATE'S PSYCHOLOGY REGULATORY AUTHORITY SHALL
24 INVESTIGATE AND TAKE APPROPRIATE ACTION WITH RESPECT TO REPORTED
25 INAPPROPRIATE CONDUCT ENGAGED IN BY A PSYCHOLOGIST PRACTICING UNDER
26 TEMPORARY AUTHORIZATION TO PRACTICE THAT OCCURRED IN THAT DISTANT
27 STATE AS IT WOULD IF SUCH CONDUCT HAD OCCURRED BY A LICENSEE WITHIN THE
28 HOME STATE. IN SUCH CASES, THE DISTANT STATE'S LAW SHALL CONTROL IN
29 DETERMINING ANY ADVERSE ACTION AGAINST A PSYCHOLOGIST'S TEMPORARY
30 AUTHORIZATION TO PRACTICE.

31 (F) NOTHING IN THIS COMPACT SHALL OVERRIDE A COMPACT STATE'S
32 DECISION THAT A PSYCHOLOGIST'S PARTICIPATION IN AN ALTERNATIVE PROGRAM
33 MAY BE USED IN LIEU OF ADVERSE ACTION AND THAT SUCH PARTICIPATION SHALL
34 REMAIN NON-PUBLIC IF REQUIRED BY THE COMPACT STATE'S LAW. COMPACT
35 STATES MUST REQUIRE PSYCHOLOGISTS WHO ENTER ANY ALTERNATIVE PROGRAMS
36 TO NOT PROVIDE TELEPSYCHOLOGY SERVICES UNDER THE AUTHORITY TO
