Re: Comments on Congressional Redistricting Map HB0002

I am **IN FAVOR** of the Redistricting Map.HB0002

In order to represent people and their communities, contiguous neighborhoods should be kept intact in their representative districts. These neighborhoods should NOT be split between districts.

The map drawn by the nonpartisan commission is more representative of the people and their neighborhoods.

GIVE THE PEOPLE AND THEIR NEIGHBORHOODS THEIR VOICE.

KEEP CONTIGUOUS COMMUNITIES INTACT!
