RE: Redistricting maps special hearing testimony

Dear Maryland Delegates,

I will keep this short.

The proposed Redistricting Map concocted by the Legislative Redistricting Advisory Commission is nothing short of ridiculous and promotes "rigged" districts to benefit candidates or incumbents for Maryland offices. As an example, Baltimore city is divided into 3 different districts!

With all of the debate and evidence being revealed about election fraud, this gerrymandering is just another political ploy to manipulate election outcomes.

It is time to stop it – NOW.

I implore and expect you to conduct your affairs, as representatives of the citizens of Maryland, to stand up and be Statesmen and Stateswomen by voting for and adopting the Legislative/Congressional map created by the Maryland Citizens Redistricting Commission. It is a fair way to create logical geographic regions which contain a balance of various population centers.

Best regards,

Christine Hunt
