

Dear Committee Chairmen and Members,

My name is Yin Zheng.

I support SB 02/HB 02 because the proposed Congressional Districts are fair. They are compact in shape, do not divide counties unnecessarily, respect communities of interest and are not intentionally partisan.

I oppose SB 01/HB 01 because they continue the extreme gerrymandering of the current Congressional Districts. Most of the proposed districts in SB 01/HB 01 are stretched out or curve around in strange shapes. They separate counties into several districts, diluting each county's impact on the Congressional representative.

Checks and balances are critical to a principled government, and it is crucial to make sure the district map drawing promotes healthy competition, not an insurmountable monopoly, for candidates.

I support fair redistricting and oppose any forms of artificial boundary drawing for pure political gain, which has been deemed unconstitutional by the federal court.

I know in many parts of the world, people don't have the right to vote. We are blessed to live in this amazing country, bestowed with so many personal freedoms; therefore, it is imperative to ensure that the votes duly represent people's interests. Having more than one party should be a favor, not a roadblock, to the best interest of the citizens – that is the reason why people around the world flock to America.

Please don't create a map that reinforces one-party rule. It's not fair to everyone else and it is not healthy for democracy. Maryland needs a diversity of voices and perspectives from different parties. Let Maryland shine through embracing different ideas!

Sincerely,

Yin Zheng
