RE: Written Testimony for HB1291

Dear Delegates,

HB1291 is just another bill that is in search of an issue. These handguns are rarely if ever used in crime. Many of us hobbyists enjoy taking on projects such as this for our enjoyment. We are law abiding citizens. This bill will only impact us. Criminals will not obey your laws.

This will have zero impact to what I believe is your intention: the reduction to the rate of homicides in Maryland, especially Baltimore City. Focus on the criminals not us.

The only impact is to burden citizens who obey the law. I respectfully ask that you vote Unfavorably on this bill.

Respectfully,

Peter O'Neill
