Hello,

I am submitting this written testimony to register my strong **OPPOSITION** to HB0200. I believe this bill is little more than a blatant attempt to criminalize possession of a firearm in any household or building of any kind in which children *may at some point* be present. This places an unreasonable burden on citizens that they cannot possibly comply with and could not possibly defend themselves against if charged with violating the proposed law. The vague language of HB0200 is an open call for overzealous prosecution of firearms owners and blatantly unconstitutional.

I respectfully request that you reject this legislation as patently dangerous and recognize that if enacted it will in all likelihood cause more harm than it prevents. This is the worst kind of overly broad and vaguely worded legislation that will create intractable legal problems for good and honest citizens.

Thank you for your time,
Otto Borden
