

Honorable Delegates,

I respectfully wish to express my opposition to the following bills.

House Bills 0175 0200 0638 1186 1291

These are my reasons:

1. History has proven these Laws have been ineffective in reducing violent crime. Repeating the same futile measures without achieving the desired results tells us gun control does not work. We need to look at the root causes and address these issues.
2. These laws will only lead to more Draconian laws that threatens all our Civil Liberties. Are we going to subvert the other nine amendments in the Bill of Rights? Passage of these Laws could set a precedent that would undermine the whole rule of law. What is the saying "be careful what you wish for" !
3. Why pass legislation that adds extra burdens and expenses on the government and the citizens of this state. Especially ineffective ones!
4. Taking away the unalienable rights of law-abiding tax paying voters does not help anyone. It will only create more division into our already fragmented society.

I know your heart is in the right place but please consider not to fall into the trap of the same old solutions that do not work and infringe on the rights of your constituency.

Thank for time and consideration,

Michael Clisham  
4100 Chardel Rd. Unit-A
