Please support HB23. This bill will help people feel safe enough to get a driver's license and the correct training to be able to drive legally. In the hopes of improving road safety and saving lives in Maryland, I urge you to pass this bill. It is awful to use people's personal data and information to assist ICE in arresting them and it is a huge invasion of privacy and misuse of data. In addition to this the MVA has more than enough to do, and it takes months to get a drivers license appointment time or other services from the MVA. There is no need to have "helping ICE agents" on the list of actually important work they do.

Please support the Maryland Driver Privacy Act.

Thank you,  
Alex Kohn
