

HB0767: Support

Thank you to the Montgomery County delegation for this outstanding bill. Montgomery County has strong civic participation, and in the most recent county elections, the primary election for county executive and county council at large were overcrowded. Casting one single vote for one person and picking the first place finisher is not appropriate in these cases. Approval voting and ranked-choice voting are simple systems that can lead to much better outcomes in many cases.

I ask for a favorable report on this bill.
