

HB1249

UNFAVORABLE

I find all this talk about “racial equity” actually very racist and divisive, which seems to be the real goal on the part of some individuals. And I am speaking as a mixed race individual, not from a place of “white privilege.” America is about “WE THE PEOPLE,” not about we the brown people, we the yellow people, we the black people, we the red people, we the white people. I find this identity politics very offensive and not conducive to unifying this country.

Thank you.
