

UNFAVORABLE Testimony - HB 0780
Nelda Fink, 8372 Norwood Dr, Millersville
MD District 32

No. No more taking away our rights. No more giving the perception that the government needs to provide safety. Safety is a state of mind of the individual. The government cannot provide that state of mind. We The People did not create government to protect us, we created the government to **PROTECT OUR RIGHTS!!** There is no right to safety since safety can only be defined by the individual, not by the population. I can feel safe standing in front of a roaring lion and you may not feel safe. It is because I have the right state of mind, and you do not. **YOU THE GOVERNMENT CANNOT PROVIDE SAFETY** so stop lying to the people and deceiving them into thinking that you can!!

Back to your oath of office, this bill sets up the government to take away more of our rights. Therefore moving it forward with a favorable response is violating your oath of office. Thankfully we the people now know who is consistently engaged in this violation and who is not.

Requesting that you follow your oath of office, do your sworn duty and do not pass this bill forward – give it an **UNFAVORABLE** response.

OPPOSE This Bill.
