Danna L. Kauffman

DATE: March 15, 2022

RE: **SUPPORT** – House Bill 1446 – *Universities at Shady Grove Regional Higher Education Center – Workforce Development Programs – Funding*

The Maryland Tech Council (MTC) is a collaborative community, actively engaged in building stronger life science and technology companies by supporting the efforts of our individual members who are saving and improving lives through innovation. We support our member companies who are driving innovation through advocacy, education, workforce development, cost savings programs, and connecting entrepreneurial minds. The valuable resources we provide to our members help them reach their full potential making Maryland a global leader in the life sciences and technology industries. On behalf of MTC, we submit this letter of **support** for House Bill 1446.

House Bill 1446 requires a \$5 million appropriation in Fiscal Years 2024 and 2025 for the Universities at Shady Grove (USG) Regional Higher Education Center to establish or support workforce development programs. USG's approach to higher education is designed to connect local college students to outstanding career opportunities, while providing regional employers with a highly educated, skilled workforce. MTC supports funding workforce development programs, which will provide solutions to our workforce shortage, and help students navigate the available career pathways. For these reasons a favorable report is requested.
