Senator Bryan W. Simonaire,

I support this bill.

SB 736 would reduce the minimum tax rate by half in the county and would limit who could be charged the maximum rate. This reverses the recent local tax rate hike!

Hi Senator Simonaire,

I back you 100% on your bill on tax relief. Living in Maryland these days is really rough and not because of the pandemic. It's all due to taxes on those of us living here. I'm single, buying my home in Pasadena and it's an everyday struggle. My property taxes continue to rise and we see nothing from the increase. State income taxes also continue to rise even though there is a huge surplus in the state's coffers

I am writing in support of SB736. As my husband and I have lived in Maryland our entire lives, we are for any and all tax cuts. I share my concerns due to the fact that enough is enough. I have lived at my current resident 35years. This was always supposed to be our forever home. We have raised our children who have gone on to do great things in the state of Maryland. With all the taxes this state has, My family and I are willing to fight to stay where we have had much enjoyment right here in this great state. We are however, prepared to leave Maryland to enjoy our retired years in a state that will not tax us to death. I ask that you continue to fight for all of us that want to stay in our homes and the state we love the most. Maryland.

Thank you as always,
Pauline Elliott

Written Testimony in SUPPORT of SB 736

Chairman and members of the Budget and Taxation Committee, I am here to introduce and voice my support for Senate Bill 736 – *Real Local Tax Relief for Working Families Act of 2022*.

Senate Bill 736 would alter the calculation of a certain grant to certain counties under certain circumstances and would decrease, from 2.25% to 1%, the minimum tax rate that a county is required to impose on an individual's Maryland taxable income. This change would apply to all taxable years beginning after December 31, 2022.
