

Senator Guy Guzzone  
Chair, Budget & Taxation Committee

I am writing in support of SB736. As my husband and I have lived in Maryland our entire lives, we are for any and all tax cuts. I share my concerns due to the fact that enough is enough. I have lived at my current resident 35years. This was always supposed to be our forever home. We have raised our children who have gone on to do great things in the state of Maryland. With all the taxes this state has, My family and I are willing to fight to stay where we have had much enjoyment right here in this great state. We are however, prepared to leave Maryland to enjoy our retired years in a state that will not tax us to death. I ask that you continue to fight for all of us that want to stay in our homes and the state we love the most. Maryland.

Thank you as always,  
Pauline Elliott
