Re: **Opposition of SB 783 - Constitutional Amendment - Environmental Rights**

On behalf of our member families, I submit this written testimony opposing SB 783. This bill proposes an amendment to the Maryland Constitution, contingent on a referendum, to establish that every person has the right to a certain clean and healthy environment. The bill elaborates that a clean environment is all of the following: clean air, pure water, ecosystems that sustain Maryland's natural resources, which include that waters of the state, air, flora, fauna, climate, and public lands, the preservation of the natural, healthful, scenic, and historic values of the environment, and states that Maryland's natural resources are the common property of every person.

This will give citizens in Maryland standing to intervene on any state application process if they believe it interferes with any of those clean environment definitions mentioned above. Some agriculture examples would include, CAFO's, irrigation, hemp, new buildings, composting, commercial fishing, aquaculture permits, and Deer Management Permits.

**MDFB Policy:** We strongly support responsible and workable actions designed to permit and protect the privilege and rights of farmers, commercial fisherman, and aquaculturalists, to produce without undue or unreasonable restrictions, regulations, or legislation. We support actions to ensure that farmers are protected from liability and nuisance suits when carrying out normal production practices.

**MARYLAND FARM BUREAU RESPECTFULLY OPPOSES SB 783**
