## Testimony of Larry Stafford, Jr., Executive Director of Progressive Maryland

### HB 569 – Energy Generation, Transmission, and Storage Projects – Required Community Benefit Agreement and Labor Standards February 24, 2022

#### Position: Favorable

Chair Wilson and members of the Economic Matters Committee:

Thank you for the opportunity to offer testimony in support of HB 569. Progressive Maryland is a statewide grassroots nonprofit with over 100,000 members, supporters, and affiliates who live in nearly every legislative district across Maryland. Our multi-racial, multi-issue organization is dedicated to building power for working people and ending all forms of structural oppression.

**Progressive Maryland supports HB 569**, a measure that would establish strong labor standards for energy generation projects. Environmental justice is a key issue area for our organization, and we have been heavily involved with the push toward a green economy at both the state and federal levels. As Maryland shifts away from its reliance on fossil fuels, it is critical to ensure the roles created by this transition are quality jobs with strong benefits and meaningful worker protections.

HB 569 establishes some of the conditions for an economically just transition by requiring developers to pay workers prevailing wage rates on the construction of energy generation projects that require a Certificate of Public Convenience and Necessity (CPCN). This legislation also requires developers to demonstrate best efforts to enter into agreements with the communities affected by their projects that prioritize jobs for local residents and businesses, offer career training opportunities, and implement safety protocols.

Many states have already passed legislation to establish labor standards on energy projects — these include Connecticut, Illinois, Minnesota, New Jersey, New York, Oregon, and Washington. Now is the time for Maryland to join these other progressive states.

**We urge the Committee to vote favorably on HB 569** and move the legislation as soon as possible. Thank you for considering our support for this urgent and important bill.

Larry Stafford, Jr.  
Executive Director  
Progressive Maryland
