

February 7, 2022

Greetings to the House Economic Matters Committee,

I am a minority owned, newly organized business and strongly agree with bill HB409. As a new business, the cost for getting started is already costly and exorbitant. Not having to pay Annual Filing fees would lessen our setup expenses and allow me to invest that money into providing services that are professionally developed and delivered. I encourage you all to consider the small businesses, their expenses, and the services we provide to improve the quality of life for the citizens of the state of Maryland. Please vote in Favor of Bill HB409.
