

UNFAVORABLE Testimony - HB 1112
Nelda Fink, 8372 Norwood Dr, Millersville
MD District 32

Unfortunately we cannot fix stupid. We should not restrict corporations who want to deceive the customer from practicing their business. We should make it easier for the consumer to file litigation against said companies.

This bill is too specific and against one situation. A bill that in general requires a corporation to review the contract and have the consumer sign off that they understand the contract would be one that would be more encompassing and more favorable. More people could be taking these cases to the Attorney General as a bait and switch type of contract and let the AG handle it.

Because this bill is specific to one business sector, I oppose it and request the committee also vote unfavorably.

OPPOSE This Bill.
