**Testimony - Electricity - Community Solar Energy
Generation - Consolidated Billing - HB0818**

**Organization: Cedar Lane Environmental Justice
Ministry (CLEJM)**

Submitter: Lee McNair, Co-Leader

Position: FAVORABLE

CLEJM is a faith based community and, as such, we support this bill as it promotes justice in that it makes it possible for low income residents to apply their energy assistance to community solar energy generation, thus lowering the cost of their energy bills.

We urge the committee to provide a FAVORABLE outcome in committee for HB0818.

We thank you for this opportunity to provide testimony to the committee.
