Economic Matters Committee
State Capitol
Annapolis, MD 21401

Dear Economic Matters Committee:

My name is Deanna Tilden and I am Deaf. I live in Baltimore City.

I am writing to ask you to support **HB 1238**- Open Captioning Bill, sponsored by Delegate Harry Bhandari. This bill will require all motion picture houses to offer closed captions for each screening of a motion picture. It also will require that motion picture houses provide open captioning for at least certain screenings each week.

Captioning, also known as same-language subtitles, benefits everyone who watches videos (children, adolescents, college students, and adults). More than 100 empirical studies document that captioning a video improves comprehension of, attention to, and memory for the video. Captions are particularly beneficial for persons watching videos in their non-native language, for children and adults learning to read, and for persons who are D/deaf or hard of hearing.

Most importantly, the bill provides communities with the assurance and peace of mind that they have access to the movie without using devices or other methods same as other people who go to the movie.

My personal story is I used three devices in my lifetime. Rear Window Captioning and CaptiView, both heads were heavy that arms were unable to hold well after months or years were used. They were dead from the beginning a few times since they forgot to plug into recharge. Also, strained my eyes because of the small fonts. The third device - Sony Subtitle Glasses were so heavy on my nose for 2 hours (twice in a row at two different times). I quit going to the theater for more than 10 years.

Thank you for your time and attention to this important matter and I appreciate your support on HB 1238.

Sincerely,

Deanna Tilden
