

RE: HB0409

Testimony for hearing to be held on Feb. 9, 2022

I am a small Business owner of a part time Business, Quantum Therapeutics, LLC.

In addition to my regular licensing fees, I was surprised at the robust annual "filing fee" that I have to pay...\$310.00 annually in my case. That is a hefty sum for electronic filing. I see no justification for such a fee other than another way for the government to squeeze money out of small businesses.

As you well know, Small Businesses suffered greatly during the COVID lockdowns and those of us who managed to survive, are still struggling to continue to survive.

I support bill HB0409 and the removal of the filing fee.

Sincerely,

Nina Mihaychuk
