FROM: Maryland Conference of Local Environmental Health Directors
RE: HB 250- Private Well Safety Act of 2022

The Maryland Conference of Local Environmental Health Directors (the Conference) **SUPPORT the** enabling legislation of HB 250 **WITH AMENDMENTS** that have been discussed with and agreed upon by the bill sponsor. Through a collaboration with the Center for Progressive Reform and other stakeholders, the conference has provided input in the past and more recently we believe that many of our suggested amendments have been accepted by the bill sponsor. While we do not have complete agreement on all matters or confirmation of those changes, we trust that amendments will ultimately be made as promised.

We ask that the committee give this bill a **FAVORABLE** report **with amendments**.
