Boyd K. Rutherford, Lt. Governor
Jeannie Haddaway-Riccio, Secretary
Allan Fisher, Deputy Secretary

Bill Number: House Bill 1304

Short Title: Natural Resources-Offshore Blind Sites-Licensing Process

Department's Position: Letter of Information

Explanation of Department's Position

This bill proposes amendments to Natural Resource Article 10-608, which would require that the offshore blind site licensing process be held on an in-person, first-come first-served basis. In order to facilitate the requirements of the bill, the Maryland Department of Natural Resources (DNR) would need to hold a one-day licensing event in each participating county on a different day.

Instituting this process would create numerous operational difficulties and also raises concerns regarding fairness. For example a first-come, first-served model may benefit only hunters that live close to the licensing locations and/or have the ability to take time off of work to attend on a certain day. Maryland hunters expect a fair and orderly process for establishing each participant's place in line. Additionally, counties that host a licensing day first will be able to monopolize the selection of offshore blind sites on rivers that may transcend multiple counties. This is especially true given the distance rules associated with blind site licensing (e.g., all blind sites must be at least 250 yards apart).

DNR currently offers an adequate virtual option with greater accessibility and convenience for use by all Maryland hunters.
