HOUSE BILL 855 Agriculture – Urban Agriculture Water and Power Infrastructure Grant Program and Fund – Establishment (Boyce)

STATEMENT OF INFORMATION

DATE: February 25, 2022

COMMITTEE: House Environment & Transportation

SUMMARY OF BILL: HB 855 creates an Urban Agriculture Water and Power Infrastructure Grant Program and Fund in the Department of Agriculture, the purpose of which is to provide grants to urban agricultural producers and qualified nonprofit organizations for the purchase and installation of: (i) agricultural equipment associated with water supply and irrigation; and (ii) electric power access; and mandates an annual General Fund appropriation in the amount of \$500,000 in FY 2024 - FY 2027.

EXPLANATION: The Department of Budget and Management's focus is not on the underlying policy proposal being advanced by the legislation, but rather on the \$500,000 mandated appropriation provision, which impacts the FY 2024 - FY 2027 budgets.

DBM has the responsibility of submitting a balanced budget to the General Assembly annually, which will require spending allocations for FY 2024 to be within the official revenues estimates approved by the Board of Revenue Estimates in December 2022.

Changes to the Maryland Constitution in 2020 provide the General Assembly with additional budgetary authority, beginning in the 2023 Session, to realign total spending by increasing and adding items to appropriations in the budget submitted by the Governor. The legislature's new budgetary power diminishes, if not negates, the need for mandated appropriation bills.

Fully funding the implementation of the Blueprint for Maryland's Future (Kirwan) will require fiscal discipline in the years ahead, if the State is to maintain the current projected structural budget surpluses. Mandated spending increases need to be reevaluated within the context of this education funding priority and the Governor's tax relief proposals.

Economic conditions remain precarious as a result of COVID-19. High rates of inflation and workforce shortages may be short lived or persist, thereby impacting the Maryland economy. While current budget forecasts project structural surpluses, the impact of the ongoing COVID-19 pandemic continues to present a significant budgetary vulnerability. The Department continues to urge the General Assembly to focus on maintaining the structural budget surplus.
