Annapolis, MD 21401

***Re: Letter of Support – Senate Bill 625 – Transportation of Disabled Persons –  
Transportation Network Companies – Employee Requirements***

Dear Chairman Barve and Committee Members:

The Maryland Department of Transportation (MDOT) supports Senate Bill 625 as it will allow the MDOT Maryland Transit Administration (MDOT MTA) to offer increased service for mobility customers by partnering with Transportation Network Companies (TNCs).

Senate Bill 625, which passed unanimously in the Senate, would exempt TNC employees that provide transit service to disabled persons under contract with the MDOT MTA from the fingerprinting requirement within Transportation Article 7-102.1. Senate Bill 625 requires TNCs that provide these transit services to run an annual background screening on all transit operators, including an operator's entire adult history. Senate Bill 625 requires that any background screening provider used by a TNC be audited and accredited by the Background Screening Credentialing Council of the Professional Background Screening Association. Senate Bill 625 also gives the MDOT MTA the ability to adopt more stringent regulations at its discretion and requires the MDOT MTA to complete a report on how to expand the service areas for the TNC supplemental service. Additionally, this legislation has received no opposition and is supported by the ARC of Maryland and the Maryland Developmental Disabilities Council.

The MDOT MTA has investigated several innovative ways to improve Mobility service and provide additional options for riders. One effective and immediate way to improve service is through contracts with TNCs for a service similar to the MDOT MTA's current Call-a-Ride program. Mobility riders will have the ability to opt into this supplemental service and their access to existing Mobility service will not change.

Many of the MDOT MTA's industry peers offer similar supplemental paratransit service using TNCs. Currently, the Washington Metropolitan Area Transit Authority (WMATA) offers supplemental premium TNC programs within Maryland.

In the MDOT MTA's initial discussions with major TNCs in the region, it was conveyed that the fingerprinting requirements of Section 7-102.1(e) of the Transportation Article would be a barrier to any contractual agreement with the MDOT MTA. Enacting Senate Bill 625 would immediately remove this impasse and allow negotiations and program implementation to proceed.

The Honorable Kumar P. Barve

As an added layer of protection for customers, Senate Bill 625 codifies Public Service Commission regulations on minimum standards for criminal history screenings and allows the MDOT MTA to adopt more stringent standards, if needed. Additionally, the MDOT MTA will accept and closely monitor concerns from riders.

The operator shortage that currently exists has had a negative impact on the vital service that Mobility supplies to those in need. Senate Bill 625 will directly address this issue and allow the MDOT MTA to bring a new and innovative solution that will keep our customers safe and on the move.

The Maryland Department of Transportation respectfully requests the Committee grant Senate Bill 625 a favorable report.

Respectfully submitted,

Holly Arnold  
Administrator  
Maryland Transit Administration
