

To my Maryland legislators,

I strongly plead that you do not vote to pass HB1171, the inclusion of “reproductive liberty” as a fundamental right of a female to kill her defenseless unborn baby who cannot speak for himself/herself. That is murder. This is hard, factual reality we must all come out of denial and face as truth. There are other humane options to choose, such as adoption.

Please, please ask yourselves, what if my parent had aborted me? You are now alive today adding value to society as one of Maryland’s public servants just because your mother chose to allow you to live. I appreciate your hard work and service to the state of Maryland.

I oppose the passing of Bill HB1171 which makes abortion a constitutional right in the state of Maryland.

Thank you for your time and service.
