

I am writing in opposition to AB1171.

My reasons are that this bill if passed, will serve to debase and abuse children. The stipulated and allowed sexual practices in this bill, not once mention that children are protected.

Rather, each time a sexual procedure is mentioned in the bill as being a protected right, it never mentions even once, that minor children are protected from adult sexual abuse, adult sexual direction or adult sexual predation.

I would hope that the members of the Assembly have enough character and moral strength to resist the pressures and machinations of the cabal pushing this deviancy.
