

I oppose this bill for the reasons that it is unethical and immoral. This bill leaves children at increased risk of rape or sexual harassment. It will no longer be safe to live in Maryland as a child. Because this bill does not differentiate between minor and adult, it can be applied to both. That means that adults may rape children without consequence and take them to Maryland to abort their child, all without the parent's knowledge. Additionally, forcing Maryland taxpayers to pay for such unethical procedures and laws is immoral and disrespectful to one's beliefs. I do not want this bill to pass.
