Written Testimony on HB 1171 Declaration of Rights-Right to Reproductive Liberty:

***Another bill with a noble sounding name but hiding a diseased can of worms in its language***

I'm writing to ask for a "no" "unfavorable" vote on this bill. How many more of these nefarious bills are going to be brought before our legislative bodies for a vote? How many more years will they sit idly by watching this endless slaughter and pass more perverted bills giving freedoms to disorder! They are so many other important elements of governance our leadership should be engaging in, how to help families, the foundation of all society, grow and prosper—*not kill and destroy it in as many ways as possible*. Instead, we see more and more perversions being passed and enshrined in law and allows for the good to be persecuted. Why?!

PLEASE VOTE NO ON HB1171.
